ABOUT ME

An experienced software engineer with over 3 years of experience, able to adapt quickly and eager to tackle new challenges.

EXPERIENCE

- **FULL STACK DEVELOPER / FOUR VISION MEDIA**
  2019 — 2021

  An experienced full-stack developer proficient in Laravel, MySQL, PostgreSQL, and Vue, capable of crafting end-to-end solutions, seamlessly integrating Vue frontend with Laravel backend, and adeptly managing database systems.

- **FULL STACK DEVELOPER / PT. DIGITAL SOLUSINDO BESTAMA**
  2021 - PRESENT

  Aiding companies in digitalizing their systems as a full-stack developer, with expertise in streamlining processes through tech solutions, from frontend implementation to backend integration.

EDUCATION

- **SMKN 1 KAWALI**
  2017 - 2019

  Studied software engineering at SMKN 1 Kawali, where I gained a comprehensive education in software development and honed my skills in coding, programming, and system design.

- **UNIVERSITAS SIBER ASIA**
  2023 - PRESENT

  To gain more knowledge and experience in various aspects of information technology, including programming, networking, and systems analysis, I am pursuing a Computer Engineering degree at CyberAsia University.
